

DAH060EN

Rig Supply Silo Suction and Discharge
Hose, 20 Bar

Code	ID (mm)	OD (mm)	Wall (mm)	Working Pressure (bar)	Burst Pressure (bar)	Bending Radius (mm)	Weight (kg/m)	Max. Length (m)
DAH060EN-127x10	127	147	10	20	60	670	5,82	40

Application

Heavy duty suction and discharge hose for transport of abrasive media such as mud, cement, barite and sand, conductive and highly abrasion resistant tube compound, constructed in compliance with ABS / DNV standards.

Temperature

-30°C to +90°C

Features

Strong, abrasion resistant tube, vacuum proof, conductive, flame retardant

Type

Mandrel built

Tube

Synthetic rubber compound, black, smooth, antistatic, highly abrasion resistant ~ 50mm³, conductive

Reinforcement

High tensile textile cord, steel helix wire, antistatic copper wire

Cover

Blend of synthetic and natural elastomers, black, smooth with cloth impression, conductive, seawater, abrasion, weather and ozone resistant, flame retardant

Marking

Embossed or Transfer Label

Standards/Approvals
