

## RDH060C

Seawater Suction & Delivery Hose,  
20 Bar, Conductive

| Code           | ID (mm) | OD (mm) | Wall (mm) | Working Pressure (bar) | Burst Pressure (bar) | Bending Radius (mm) | Weight (kg/m) | Max. Length (m) |
|----------------|---------|---------|-----------|------------------------|----------------------|---------------------|---------------|-----------------|
| RDH060C-127x15 | 127     | 157     | 15        | 20                     | 60                   | 650                 | 8.57          | 40              |

### Application

Seawater suction and delivery hose made from high temperature and ozone resistant synthetic rubber compound for use in offshore applications

### Temperature

-40°C to +120°C

### Features

Durable and flexible, suitable for vacuum, conductive, can be made to order in custom lengths

### Type

Mandrel built

### Tube

Synthetic or natural rubber compound, black, smooth and seawater resistant, conductive

### Reinforcement

High tensile textile cord fabric, steel helix wire

### Cover

Synthetic or natural rubber compound, black and smooth, weather, seawater, ozone and abrasion resistant, conductive

### Marking

Embossed or Transfer Label

### Standards/Approvals

### Comments
